

## Update for: 1/11/21 Category: Wastewater

Going forward, on the Friday prior to each city council meeting, the Engineering Department will try to send out a project update document. Each update will have a specific category of focus. This week the focus will be to provide you with a comprehensive list of wastewater projects for 2021. Please see the table below for the proposed projects.

If there are any questions please email them to Emily McKinley or Brian Ball, P.E. We hope these updates will provide you all with an increased awareness of the work that is going on in the department.

2021 projects	Status	Planning level estimated costs
*Oak St / S Catherine St sanitary sewer replacement	<b>Out to bid. Needs budget approval to Start construction</b>	\$457,000
*Clinton Rd sanitary sewer replacements Phase1	<b>Ready to bid</b>	\$104,000
Engineering work on wastewater treatment plant	<b>Underway</b>	\$60,000
Manhole Rehabilitations	<b>Needs budget approval to start</b>	\$25,000
*Clinton Rd engineering phases 2 - 4		\$150,000
Small repairs related to inflow & Infiltration to sanitary sewers		\$75,000
