Mount Vernon
ENGINEERING DEPARTMENT

**Annual Request for Qualifications
2026-7**

The City of Mount Vernon, Ohio is currently accepting Statement of Qualifications (SOQ) for professional design/consulting services per Ohio Revised Code 153.65 through 153.73. A General SOQ shall be submitted for the purpose of identifying the most qualified firms to provide professional design/consulting services for the 2026-7 calendar year.

Firms interested in being considered for projects in Mount Vernon are encouraged to submit a current SOQ at the beginning of each calendar year. Each firm's qualifications will be evaluated using the Ohio QBS Coalition manual, copies of which are available through the American Council of Engineering Companies (www.acecoho.org).

Services required by the City of Mount Vernon include but are not limited to: preliminary and detail design of public utilities, roadway, bridges, structural, traffic control and analysis, bike trails, stormwater, hydrologic and hydraulic river studies, shop drawing review, independent review of construction drawings and specifications, construction inspection, right-of-way plan development, right-of-way acquisition, environmental engineering services, architecture and landscape design, railroad work, and tree plantings, removals and maintenance, arborist services, real estate services, architectural services, master planning, grant writing, environmental, survey, and public relations. Firms shall include any letters of prequalification from the Ohio Department of Transportation (ODOT) as they apply to the above-mentioned services.

*Note: Larger projects may be advertised with project specifics.

Selection may begin 10 calendar days after this advertisement.

Submit two (2) copies of the SOQ by mail or PDF by email to:

Brian W. Ball, P.E.
City Engineer
40 Public Square
Mount Vernon, Ohio 43050
Engineer@mtvernonoh.gov

SOQ's will be accepted on a renewal bases until December 31, 2027
